

Artist Statement for the Yearbook Cover-

When creating the yearbook cover, I used Adobe Illustrator. I uploaded a picture of the school and the senior class onto an iPad. Then I used an apple pencil to trace around the details in the picture. I used a font from Canva. I started with a blank page and added all the elements and details. I used a Diary of a Wimpy Kid book as inspiration but created all the elements myself. The process took about 5 hours to complete.

DIARY
