

MOMENTS IN MIDAIR

This sequence shows the 301 C dive of the teams sole diver; junior, **Charlotte Sherwood**. She has been diving for 2 seasons.

Diving Sequence

I made this diving sequence as a mod for the swim spread to feature our sole diver on the team. I designed this by piecing together shots of her dives through the season.

I used Canva to design this. I did not use a template, I designed from scratch on a Youtube banner background.

I took all the pictures used.

I chose a wave in the background to add more design in the background. I used a soft blue gradient and subtle water textures to keep the focus on the athlete while reinforcing the aquatic setting. The white title, *Moments in Midair*, contrasts clearly against the background and reflects the light, weightless feeling of the dive.

My goal was to emphasize the beauty of a movement that happens in only a few seconds, allowing viewers to appreciate each stage of the dive in a single frame.
