

VIDEO games

Why are video games so popular? Why do you play?

Top video games played, based on a random survey

"The game quality is really good. I play so I can play with friends." -Daniel Winter

"Video games are less boring than reading."
-Charollette Berglund

"They are fun and you can play them with friends.."
-Rachael McGargill

"I play video games to escape reality and have a break from life." - Bella Jelken

"I play Roblox so much because my friends play it."
-Andy Tran

Artist's Statement:

The infographic depicts the best interest in video games of the students surveyed. I was given the final pie graph created by google forms and decided to draw a unique shape to represent the different games. I used a typical game controller shape and divided the wedges according to the original pie graph. The font is hand drawn and meant to reference back to our main headline font for the yearbook, tying back to our theme this year.
