

# THE HANGINGS AT MERCY HOLLOW

FREE!

Gretna High School

November 23 – 7pm

## **Roxy Lightle artist statement**

For starters, I used the application, Canva, to find a template for the poster. Then, I developed a background using various elements and graphics to create a mysterious and enticing scene. Using Google, I found characters to cut out and edit into the image to portray actual characters in the play. It took a couple days to make everything look cohesive, but eventually I developed a color palette and organized the elements how I wanted them to look. I added the final details, like text or extra graphics, to make the design have depth and be more entertaining overall as a whole. The entire piece took a week to finish, but I really enjoyed creating it, and thank you for viewing my submission!
